## STACK N PACK

### STACKABLE JOIST MOUNTS

A solution for framing over waterproof membrane, concrete or other flat solid surfaces.

Perfect for low height decking situations.

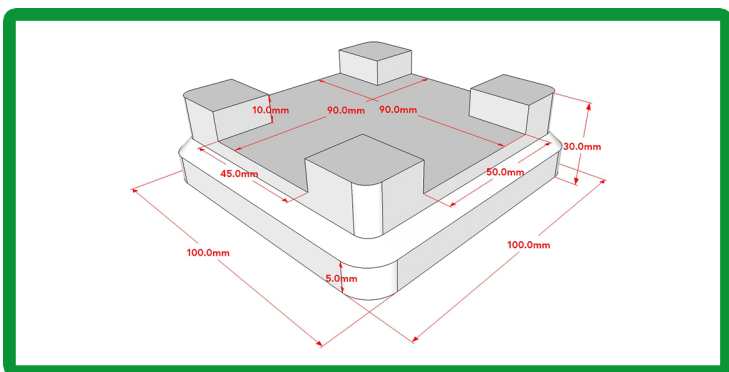

Can be used as a single layer of joist mounts

OR

Stacked on top of each other and packed with our packers to level out angled surfaces

The versatile design allows it to be used with both 45mm and 50mm wide timber joists.

Use the BiForm Joist Mount Packers to achieve the desired height. Colour coded in 3 sizes: 2mm, 3mm and 5mm

*BiForm Joist Mounts have been tested to bear a load capacity of over 1.3 tonnes per joist mount*
